## Upcoming Releases

### **Income in the United States: 2021**

The Census Bureau will announce the nation's annual estimates on income, earnings and inequality to evaluate national economic trends and to understand their effect on the well-being of households and individuals. These estimates are based on the 2022 Current Population Survey Annual Social and Economic Supplement. (Scheduled for release September 13.)

### **Health Insurance in the United States: 2021**

The Census Bureau will announce the nation's annual health insurance coverage estimates highlighting national trends and examining characteristics by health insurance status to better understand the well-being of individuals. These estimates are based on the 2022 Current Population Survey Annual Social and Economic Supplement. State-level ACS data will be released September 15. (Scheduled for release September 13.)

### **Poverty in the United States: 2021**

The Census Bureau will announce the nation's official poverty and Supplemental Poverty Measure (SPM) estimates to help understand the economic well-being of households, families and individuals based on national poverty rates and SPM rates for the nation and states. This is the first year that official poverty and SPM estimates will be released in the same report. These estimates are based on the 2022 Current Population Survey Annual Social and Economic Supplement. (Scheduled for release September 13.)

### **2021 American Community Survey 1-Year Estimates**

The 2021 American Community Survey (ACS) 1-year estimates are scheduled to be released **Thursday, September 15, 2022**. These data will be available for the nation, all states, the District of Columbia, Puerto Rico, every congressional district, every metropolitan area and all counties and places with populations of 65,000 or more. These estimates include language spoken at home, educational attainment, commute to work, employment, mortgage status and rent, as well as income, poverty and health insurance coverage. Embargo subscribers can access these statistics beginning at 10 a.m. EDT, Tuesday, September 13. (Scheduled for release at 12:01 a.m., Thursday, September 15.)

## 2022 Product and Event Calendar

The U.S. Census Bureau has posted anticipated release dates for each regular and recurring statistical product scheduled for release in 2022.

These products are listed in the Census Bureau's online product calendar, which is updated as needed.

## **Census Bureau Releases New Data Tool, Data Tables and Research Paper on Young Adult Migration**

The Census Bureau, in collaboration with Harvard University, today released a [new interactive data tool](#), [data tables](#), and [research paper](#) on young adult migration. This research uses deidentified decennial census, survey, and tax data for people born between 1984 and 1992 to measure migration between locations in childhood and young adulthood. The data tool and data tables show commuting-zone-to-commuting-zone migration rates across the nation, broken down by race and parental income. (Commuting zones are collections of counties that serve as a measure of local labor markets). The release also includes a research paper that sheds light on these new statistics and examines how migration patterns change in response to labor market opportunities. The research paper draws upon these patterns to explore how the benefits of local labor market growth are geographically distributed across locations of childhood residence.

The interactive data tool and data tables can be found at [migrationpatterns.org](https://migrationpatterns.org).
